ABOUT ONEPARTNER

Specializing in technology & healthcare transformation

OnePartner is a technology (/healthcare-technology) and healthcare transformation (/healthcare-transformation) company which specializes in providing consulting and data solution services (/data-center) to global companies across all industries.

Created by physicians, for physicians, OnePartner's healthcare transformation services are inclusive of value-based contracting (/value-based-contracting) and value-based operations (/value-based-

operationalization) supported and enabled by the **OnePartner Health Information Exchange (HIE) Community Record (/hie)** and **Analytics Gateway (/clinical-analytics-gateway)**.

The OnePartner HIE Community Record enables the secure, safe and actionable access to patient information across the care continuum for the purpose of improved patient care and value enablement. By leveraging the aggregation of this data, OnePartner has proven success in delivering value in healthcare, predicated on the needs of physicians, the individual patients they serve and the overall health and wellness of the populations they support.

OnePartner's **data solution services (/data-center)** include **colocation (/colocation)** and **disaster recovery (/disaster-recovery)** services at the **nation's first Tier III commercial data center (/news/onepartner-atac-certified-nations-first-tieriii-data-center)**, the OnePartner Advanced Technology & Applications Center (ATAC), located in Duffield, Virginia. The OnePartner ATAC is host to the **OnePartner HIE (/hie)**, ensuring the highest level of security to protect the sanctity of the data provided through

OnePartner Services
